

FULL STACK DEVELOPER f/m/d

WHO WE ARE

colea is a start-up based in Vienna. Our mission is to reinvent data collection processes by offering an innovative SaaS platform to companies of all industries. The majority of data collections within large, distributed corporations is still done using MS Excel. Usually, collecting data via MS Excel comes with high internal efforts, as well as error-prone process-steps. colea helps companies spending less time on collecting data and more time on analysing it.

WHAT WE NEED FROM YOU

As a full-stack developer, you will mainly develop features and contribute to our platform. You ensure timely and effective delivery of high quality code. But we also ask you to bring in your ideas, helping to achieve our company's vision. You strive to understand our platform end2end - not only from a technical perspective, but also from a business point of view.

WHAT YOU NEED TO BRING

You are motivated to work in a small start-up closely together with the founders in order to build a new platform.

You have experience with the following tech stack:

- ReactJS, Node.js
- Typescript
- SQL (e.g. PostgreSQL)
- GraphQL or REST
- HTML, CSS
- Interest in learning new languages such as Golang

WHAT WE OFFER

You will be involved in building a start-up almost from scratch. We make it possible to develop and grow fast.

We offer flexible working hours and remote work at competitive salaries.

Our office space includes free gym, free coffee, tea and lemonade, free rental bikes and possibilities to network every Thursday with free drinks.

If you are interested in this position, we are looking forward to your application via email to contact@colea.com.

Join us in creating an incredible SaaS platform.
